

# TOCSYC Industry Day

Testing for Robustness and Performance  
Dockside, Karlskrona, Thursday, 2016-11-10

## Book November 10th, 2016!

The annual TOCSYC Industry Day is coming to Blekinge and will be co-arranged with the Karlskrona Test Gathering (KTG) November meeting. We bring researchers and practitioners together to discuss cost-effective testing of software systems. Come hear the latest research on how to test for robust and performance efficient systems. We will also have talks on key technologies such as mutation testing.

TOCSYC brings researchers from Blekinge Institute of Technology (BTH), Mälardalen University, Skövde University, and the Swedish Institute of Computer Science (SICS Swedish ICT) together doing testing research.

The goal of TOCSYC is to enable and support cost-effective quality assurance in embedded systems by providing Swedish industry with state of the art knowledge, tools & techniques for software testing. TOCSYC is funded by the Swedish Knowledge Foundation (KKS).

## Program

- ▶ 8:00 - 08:15 Coffee
- ▶ "Integration Testing of Automotive Systems", Scania/SICS
- ▶ "Mutation Testing", Skövde U.
- ▶ "Test Case Diversity", Chalmers
- ▶ 9:50 - 10:10 Coffee
- ▶ "Performance Testing", BTH
- ▶ "Dependencies in Integration Testing", SICS
- ▶ "Automating Requirements Assurance", BTH
- ▶ "Regression Test Prioritisation", Westermo/Mälardalen U.
- ▶ 12:00 - 13:00 Lunch at Sjörök (Free!)

When: 10 November 2016

Where: Dockside, Skeppsbrokajen, 371 32 Karlskrona (on waterfront opposite Clarion Collection Hotel)

Time: 8:00-12:00  
The TOCSYC project invites attendees to a free lunch at Restaurang Sjörök from 12:00-13:00. We have room for 80 people so book early!
